

Welcome to AB Studios

We're so excited to partner with your program and support you in creating engaging, meaningful learning experiences for students.

AB Studios helps educators deliver enrichment with more joy and less prep. Our platform brings together ready-to-use video experiences, AI-powered lesson creation, and simple planning tools so you can focus on facilitating great learning rather than starting from scratch.

From plug-and-play video activities built around storytelling, science, creativity, and culture to fully customizable, AI-generated lessons created in seconds, AB Studios supports both structure and flexibility. Built-in calendaring and planning tools make it easy to stay organized and deliver consistent enrichment day-to-day.

You don't need to be an expert or spend extra time preparing. Everything is designed to be intuitive, flexible, and easy to use.

Our team is here to support you every step of the way with onboarding, ideas, and help whenever you need it. Together, we'll inspire curiosity, creativity, and a love of learning that lasts beyond the lesson.
